

Varun Sulakhe R

varunsulakhe564@gmail.com | +91-6360340775 | Vinayaka Nagar, Gauribidanur Karnataka 561208 | [Portfolio](#)

Profile Summary

Detail-oriented cybersecurity enthusiast with a Bachelor's in Computer Applications, specializing in Ethical Hacking. Skilled in security assessments, threat analysis, and implementing measures. Certified Ethical Hacker (CEHv12) with hands-on experience in security tools. Passionate about solving complex security challenges through penetration testing and vulnerability assessment. Seeking an entry-level role to apply my skills and uphold ethical standards in protecting organizations from cyber threats.

Experience

Cyber Security Engineer, Cyberjeet

Present

1st Floor, Unit D1, Pentaken Tower, 401, 28th Main Rd, HSR Layout, Bengaluru, Karnataka 561208

Web Application Penetration Testing (WAPT)

- Conducted vulnerability assessments and exploited application vulnerabilities using OWASP Top 10 techniques.
- Performed manual and automated testing to identify security flaws, including XSS, SQLi, CSRF, and broken authentication.
- Created detailed vulnerability reports with mitigation strategies.

Wazuh Security Monitoring

- Deployed and configured Wazuh for SIEM, log monitoring, and threat detection.
- Developed custom rules to detect specific threats and ensure compliance with organizational policies.
- Integrated Wazuh with other security tools to improve overall incident response capabilities.

Key Achievements:

- Improved system visibility through comprehensive logging and monitoring.
- Streamlined security operations through tool integration and automation.

Internship

ECODERS

Apr 2024 – Jul 2024

Full Stack Developer

Sports Management System:

- Developed a Sports Management System to streamline sports team administration tasks.
- Front-End Development: Designed and implemented a responsive user interface using HTML and CSS, enhancing user experience.
- Back-End Development: Created and maintained server-side logic with Python and the Django framework to handle data processing and business logic.
- Database Management: Designed and managed a database schema using SQLite to effectively organize and manage teams, matches, and player statistics.

Key Achievements:

- Improved team management efficiency through system design.
- Enhanced user interaction with a responsive and intuitive interface

Certifications

Certified Ethical Hacker (CEHv12), EC-Council

Nov2023-Jan2024

Skills

- Penetration Testing: Metasploit, Burp Suite, OWASP ZAP, Wireshark, Nmap.
- Network Security: TCP/IP, Firewalls, VPNs, Network Segmentation.
- Vulnerability Assessment: Nessus, OpenVAS, Qualys.
- Web Application Security: OWASP Top 10, SQL Injection, XSS, CSRF.
- Cryptography: AES, RSA, Hash Functions, SSL/TLS
- Operating Systems: Linux, Windows, Ubuntu.
- Web Application Firewalls: Configuration and management of WAFs to protect web applications.
- Phishing and Social Engineering Defense: Techniques to identify and mitigate phishing attempts and social engineering attacks.
- Open-Source Intelligence (OSINT): Techniques for gathering and analyzing publicly available information for threat intelligence.
